Project Experience

662 King Street W. HIS and OHA Application

Kingston, Ontario

While working with another firm, Letourneau Heritage Consulting Inc. team members were commissioned by a development client to prepare a Heritage Impact Statement and two *Ontario Heritage Act* Applications for the adaptive reuse of a heritage property in the Portsmouth Village area within the City of Kingston. The team undertook historical research on the property, worked with City staff to clarify its heritage attributes, outlined the heritage policy framework for the property, and presented the redevelopment proposal to the City's municipal heritage committee. The project was recommended for approval to Kingston City Council.
